Creative Gazebos

Outdoor Space for Those Who Love the Outdoors

Two words best describe Creative Gazebos – “Outdoors” and “Living.” From a backyard hideaway to a large gazebo for parks and gatherings, Creative Gazebo can provide the ideal gazebo to beautify your outdoor space.

Our engineer helps us through the design process to ensure that it meets the code requirements in your area. Your gazebo will be handcrafted using the finest materials and attention to the smallest details. Choose from a variety of shapes, roof styles, materials, sizes and options to create the gazebo of your dreams.

Creative Gazebos

CreativeGazebos.com

Roof Styles

Classicpages 4-10

Enjoy the timeless elegance of our best seller!

Cathedralpage 11

This gazebo is similar to the Classic, but with a steeper roof pitch.

Victorianpages 12-15

Classic or Cathedral gazebos can be enhanced with a double roof.

Bellepages 18-19

The elegant bell-shaped roof pitch makes this gazebo unique.

Majesticpages 20-21

Distinctive concave roof pitch sets this gazebo apart.

Your dream gazebo awaits you!

Shapes

Octagon

The time-honored gazebo shape

Oval

Much like the Octagon, but with extra space

Rectangle

Even more space — ideal for hot tubs!

All Creative Gazebos are built to take the weight of hot tubs. Talk to your salesperson about getting your gazebo ready for a hot tub.

Materials

Vinyl

All load-bearing structural components are premium grade southern yellow pine encased with heavy-duty vinyl. Vinyl is maintenance free and available in a variety of colors.

Wood

For those who prefer a more rustic look and feel, pressure-treated southern yellow pine is a great choice. It is available natural or in a variety of stain colors.

Western Red Cedar

Western red cedar is an exceptionally beautiful choice. It offers the rustic feel of wood and is naturally resistant to rot, decay and insect attacks.

Classic Octagons

Straight roof, rafters, clean lines, and traditional styling best describe the Classic, our most popular design.

Custom Gallery

Looking for a custom size or design?

Contact your local Creative Gazebos dealer with your ideas.

We custom design and build gazebos up to 30' in diameter!

We Also Offer Quality Pergolas and Pavilions

The Creative Gazebos Commitment to Quality

Consistent Quality

We have an excellent team of skilled craftsmen using modern woodworking machinery. Each gazebo is built with precision; you won't find any end caps on our trim covering up bad joints. Then it is carefully inspected to ensure that it passes our high standards of quality.

The Best Materials

We use clear grade, hand selected, kiln dried, pressure-treated pine lumber. We've found that it's far superior to #1 grade, which has more knots. Milled on four sides, sanded smooth, and kiln dried after treatment, enables us to apply multiple coats of paint or stain immediately.

Superior Vinyl Materials

All the main components of our vinyl gazebos are outdoor treated wood, encased with high quality premium vinyl, that will hold its smooth texture, color and strength for years.

Solid Floors

We know that our decking is only as good as our joists supporting it. All of our gazebos are built with a solid sub floor system of pressure-treated 2x6 joists, with a minimum of 16" centers. You can have confidence in your floor even with the largest of hot tubs.

Stainless Steel Screws

Assembled with stainless steel screws and glue coated galvanized fasteners, our gazebos are built to last. They are specifically designed and built to withstand strong winds and heavy snow loads. Engineered drawings are certified by a licensed engineer in your state.

Longer Posts

Our longer posts allow for matching top rails all around, presenting a pleasing uniform appearance. You'll also enjoy the benefit of enhanced standing view.

Superior Design

Creative Gazebos' styling has delighted customers nationwide and even in other countries. We hear "I have been shopping for a gazebo all over, and your gazebos are by far the nicest and best built."

Engineer Designed

All of our gazebos can be designed to meet the snow and wind load requirements of your local area.

So Enjoy The Moment...

after all it is your gazebo, so select the style and options that *you* desire.
